

Bestselling author, popular business speaker and entrepreneur, Harvey Mackay had this to say after participating in Glenn Capelli's 'Thinking Innovation' presentation "The best of the best, a masterful presentation, you are a 12 out of 10 speaker, congratulations!"

The Beatles once wrote a song with the lyric
 ... there are places I remember ...
 Well there are places I remember
 doing presentations and some of
 those places are 'magic'.

The Cathedral in Christchurch • NZ
 - address for YPO University

Chateau Lake Louise • Canada
 - address for AMP

Sun City • South Africa
 - address for Lend Lease

And now I have a BIG one to add
 to this beautiful list ...

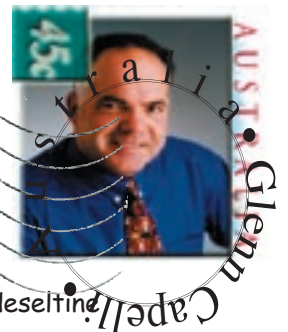

The Municipal House • Prague, Czech
 Republic - two presentations for
 YPO University

This magnificent venue in this great old city proved to be a stunning backdrop for some memorable presentations and presenters.

Others on the card included :

- Jerry Linenger, U.S. astronaut who spent five months on space station MIR
 - Harvey Mackay, entrepreneur and bestselling author of 'Swim With The Sharks'
 - King Constantine of Greece
 - Former British Deputy Prime Minister Lord Michael Heseltine
 - Image consultant and Hollywood celebrity stylist, Frederic Fekkai
 - Everest climber, adventurer and explorer Jamie Clarke
 - Amanda Gore (still in sparkling form and says 'hi' to you all)
 - Former Dean of MIT and world respected global economist, Lester Thurow
 - Alison from South Africa (the most inspirational story you will ever hear)
- and this kid from Kalgoorlie - me! - Glenn Capelli

Me with U.S. astronaut Jerry Linenger

I presented two workshops - one on 'Thinking Innovation!' and one on 'Strategies for a Changing World' - Being Smart - and had great participant numbers and feedback at both. Here are some of the reviews:

ATTITUDE

Attendees came from more than a dozen different countries including Korea, India, Saudi, Mexico, France, Jordan, Canada, the USA and New Zealand. Worldwide there are 8,100 members of the Young Presidents Organisation and, if they were combined as a country, economically they would represent the third wealthiest country on the planet. There were 260 members at the Prague University and half of those attended one or both of my presentations. Given the quality and number of simultaneous presentations on offer, I was very pleased with the number of participants at my sessions. It was a wonderful honour to be invited to present with such a prestigious faculty group.

Very original ...
Glenn is outstanding ...
It should have been longer ...
I could have listened all day ...
The best of the best ...
A masterful speaker ...
Fun ...
Great, an A+ performance ...
We need more ...
Terrific ...

In fact on the YPO scorecard 65% of attendees rated Glenn's presentations 10 or 10+. The remainder scored the presentations 8 or 9 out of 10.
