A very special PS:

I would like to forward the name of a very moving speaker - Alison from South Africa. In December 1994, Alison was abducted from her home by two men who raped and brutally assaulted her. She was repeatedly stabbed and had her throat cut from side to side. Left for dead, she lived. Alison tells her story from the heart and without sensationalism or sentimentality, weaving messages that each of us can learn from and live by. If you want more information about Alison, please feel welcome to call us (08 92271420) or visit her web site www.alison.co.za
