

Songs for The Thinking Learning Classroom

Choose Joy

Let your spirit flow
Let your fingers go
Let your feet start tapping
Let your whole being happen
Let your spirit flow
Let your heart beat know
Every girl and boy
Choose joy choose joy

Choose joy for the morning
Choose joy for the day
Choose joy for the night-time
Choose joy all the way

Let your knee caps bend
Let your bruises mend
Let your burdens drop
Let your belly flop
Let your spirit flow
Let your dance team know
Every girl and boy
Choose joy choose joy

Choose joy for the morning
Choose joy for the day
Choose joy for the night-time
Choose joy all the way

Let your nostrils flex
Let your self impress
Let your freedom fly
Let your heart know why
Oh your spirit flows
And our whole world knows
Every girl and boy
Choose joy choose joy

Choose joy for the springtime
Choose joy for the fall
Choose joy for the sun and the raindrops
Choose joy for it all.

Songs for The Thinking Learning Classroom

Born To Learn

Take a look at the person beside you
Take a look at the person you have been
Take a look at every one you have known
Take a look at your family and friends
Every brain and every body
Every heart that's beating on Earth
We are unique through our contribution
We are unique, so live it and learn

Yes we were born to learn
And we were born to teach
As we were born to love
And we were born to breathe
We say 'Yes' in all that we do
In our message for me and for you

Take a look at the local classroom
Take a look at the corporate firm
Take a look at the family household
Each a team that's wanting to learn
Every person, every talent
Help us find them, use them, believe
When we confirm our natural wisdom
We learn to set our spirit fly free

Chorus

We see a world of life long learning
We see a world of joy and esteem
This world we see in every person
Each of us carries the seed.

The Crayon Song

There is a host of crayons and colours
Inside of you and me
When we believe in our magic
We can set the colours free

We are born with a million crayons
Talents with which to amaze
When we perceive it start to believe it
Beauty comes in every day

With our love - we can colour it, we can do it
With our love - we have a magic, we are the beauty
With our love - we can do it, me and you it
With our love, love, love . . . in a billion shades

We all have a colour-in book
Our journal for our life
We can leave it or we can colour it
We can bring ourselves to life

Each of us has a million crayons
Some of us have room to play
We can share some of our own space
Then others can find their way

Chorus

We all live with a magical potential
We need to live it well
Things we create can be good for others
And be good for ourselves

With our love - we can colour it, we can do it
With our love - we have a magic, we are the beauty
With our love - we can do it, me and you it
With our love, love, love . . . in a billion shades

Songs for

The Thinking Learning

Classroom

Two thousand muscles has a caterpillar's body
And it uses every one of them you know by golly
And the butterfly whose wings have a beauty rarely finer
The beating of those wings can affect the weather in China!

This is brilliant, this is magic
Well surely this is something
But compared to the brain
This is nothing nothing nothing!

One thousand kilometres the tubes of the kidney
When I first heard this I thought they were kiddin' me
And the convoluted swirls of your inner testines
Stretched out could wrap around your head fifty times!

Professor Brain e rap - Ze Brain

performed by Keith Geary

Ze brain, ze brain, we have ze facts about ze brain
Ze brain, ze brain, we have ze facts about ze brain

Well first things first my mother said
We know ze brain is in ze head
Feels like cheese weighs as much as a book
The size of a cabbage with a walnut look

Ze brain ze brain We have ze facts about the brain

Ze neurons make ze super brain cells
They inter-connect through their dendrite pals
Chemical electrical impulses link
Creates your movement
It's the place where you think

Ze brain ze brain We have ze facts about the brain

Brain e is my name Big brain little e
I come from a country named Germany
I research all ze time about ze human mind
And right now I'll tell you what I did find

Ze brain ze brain We have ze facts about the brain

Right brain left brain working well
Pictures to words Cidmeash Mcvall
Yes learning is great ze brain likes fun
Train ze brain with ease yes it can be done!

With ze brain...ze brain....

The Many Lands of Smart

performed by Henrik & Johan Gongsater

PAGE ONE

Know it in your heart
There are many lands of smart
Seven natural wonders of your world
Every woman, every man
Every boy, every girl
The place for head and heart
Is the many lands of smart

To start to learn the seven
Lift up your eyes to heaven
See the cloud as a disco in the sky
With guitars pipes and drums
From thunder music comes
The cloud is music
Let your rhythm soar and fly

Now see the mountain as a body
Standing big and proud and tall
Use your hands and use your feet to climb it and explore
You're an athlete, a dancer, a leaper and a prancer
It takes physical precision, so use your muscle wisdom

Deep inside is a mystery
Inside is our cave
A place to find our wonder
With treasures for the brave
It's our own inner smartness
A place we learn to share
The deepest smarts of all
Is how we learn to love and care

Now there's a valley with all people
All different yet all equal
The valley is the place
For each faith and creed and race
Like flowers of different colours
Like flowers of different shapes
Every person is unique
Learn them all –communicate!

The Many Lands of Smart cont/...

PAGE TWO

In the valley there's a river
We can call it Babble-on
A brook of words and languages
A river of words in song
In reading, writing or speaking
There's a river's depth of meaning
Learn a word a day
In every language you can say

Imagine fields all square like
With plants and trees in rows
And every plant is numbered
To measure how it grows
This logic and mathematics
These numbers and these facts
All are analytic
We add, divide, subtract

And there above the lot
Shining light and bright and hot
Is a picture of the sun
With colour for everyone
Draw, sketch and doodle
Imagine pictures in our noodle
This land is Visual smarts
See it, shine – Yes, its art!

No matter what your age
No matter what your grade
There are many ways to play
There are choices to be made
Know it in your heart
The many lands of smart
The seven natural wonders of your world

Photosynthesis

Basically what we see
In green across the nation
Is a dance we call
Photosynthesis
And it's a celebration

First of all let's go with the call
Carbon dioxide
For me an you that's co2
Carbon dioxide

Add water and sunlight
Add water and sunlight

To make a change
We need a decision
Within this wondrous organism

In human beings we call it will
In plants we call it chlorophyl

Co2 plus H2o
Just add sunlight
Way to go!
We end up with a double win
We've got food and oxygen

Weve got Co2, H2o and sunlight
So now you know
A chain reaction
Nature's kiss
Results in photosynthesis!

The Bumble Bee

Lets hear it for the bumble bee
With his very large body and itsy bitsy wings
Everybody said you'll never fly
With those tiny things
But the bumble bee said
'Oh who said'
Gave it a try and took to the sky
Well look and see that the bumble bee
Is a lot like you and me

Lets here it for the platypus
'Cause he likes the look of his long fat nose
The platypus is not ashamed or embarrassed
Anywhere it goes
With his long flat tail
And duckbilled beak
His very hairy body and strange webbed feet
The funny platypus like all of us
Is wonderous and unique

Now the elephant's got a very big nose
Giraffe's got a neck that goes and goes
Hippos got a gut
Rhino's got a horn
Frog looks odd from the moment that it's born

Everyone of us is kinda strange
In a very special way
It might be something in the way we look
Or what we do or say
But if we know in our souls and minds and hearts
That is where success in our life starts
Everyone of us is kinda strange
And that's o.k.

We Do It

Somebody said that it couldn't be done
But he with a chuckle replied
That maybe it couldn't but he wouldn't be one
Who wouldn't say so 'til he tried
So he buckled right in with a trace of a grin
On his face, if he worried he hid it
He started to sing as he tackled the thing
That couldn't be done and he did it

With love he did it
With love he did it
With a grin and a jive
Man alive
With Love yea Love

Somebody scoffed: Ah you'll never do that
At least noone has ever done it
But she took off her coat and took off her hat
And the first thing we knew she'd begun it
With a lift of her chin and a bit of a grin
Without any doubting or quidit
She started to sing as she tackled the thing
That couldn't be done and she did it

With love she did it
With love she did it
With a grin and a jive
Coming alive
With love yea love

Thousands will tell ya
It cannot be done
Thousands will prophesy failure
Thousands to point out to you one by one
The dangers that wait to assail ya
But just buckle right in with a bit of a grin
Just take off your coat and go to it

The Peace Song

performed by Billie Court

Live together play together live and play in peace

Papa Echo Alpha Charlie Echo Papa Echo Alpha Charlie Echo
Papa Echo Alpha Charlie Echo Papa Echo Alpha Charlie Echo

There's a way to live and a way to shine
There are words to learn for our life time
There are words of peace from around the world
Words of peace for each boy and girl

Live together play together live in peace
Live together play together In peace
Yes there's a way that we can shine
Words to learn for our life time

Here's our chance to learn
Here's our chance to shine
Creating peace in our life time
With these words of peace from around the world
Words of peace for each boy and girl

Live together play together live in peace
Live together play together In peace
Yes there's a way that we can shine
Words to learn for our life time

The Olympics of the Heart

A kid in New York is falling between the cracks
A gang in L.A. selling deals as they head down the tracks
Some kids in Australia sniff from an old petrol can
A baby in Chile puts out a thin desperate hand

Up in Great Britain they wake in a cold deep grey
A child in Estonia is fighting to have his say
You can hear it in their manner
You can see it in their shrug
Needing something to believe in
Some special kind of love

We're gonna rise up and dare to imagine
Gonna break through, dare to succeed
I can see it, my vision has power
My power my passion carry on into action

Over in Africa they all wonder what the heck
A street kid in France is looking for some self respect
A child in Peru just wasted with time
The child that's within us know we don't have that much time

We're gonna rise up and dare to imagine
Gonna break through, dare to succeed
I can see it, my vision has power
My power my passion carry on into action

So we make the decision with a new way to learn
We can see it we can feel it as the brave new world turns
We watch and we wonder where it will start
The challenge within the Olympics of the heart

We're gonna rise up and dare to imagine
Gonna break through, dare to succeed
I can see it, my vision has power
My power my passion carry on into action

Happy Birthday

Well I . . .

Well I . . .

Wake up in the morning

Well I . . .

Well I . . .

Go to bed at night

Well I think that everything in between

Is a blessing and not a right

Is that glass half empty

Or is that glass half full

Or is that glass just a little too big

For what we're wanting to do

Is the egg before the chicken

Or the chicken before the egg

Or is it just something that the rooster did

Or something that the chicken said

There are mysteries and riddles

There is chaos in a cell

There is wonder in the thrill of it all

There's a million jokes to tell

A trillion cells went swimming

To find the goose's golden egg

Somehow we came out of it all

From something smaller than an ol' pin head

On the road of life there is a game to play

A magic moment on this earth

You're a living breathing moving miracle

Some come on celebrate your birth

You're a wonder on this earth

Happy Birthday

Happy Birthday to you

Miracle

You can walk out in the atmosphere
You can walk on fiery coals
You can walk up to the top of everest
You can walk on a fine tightrope
You can praise all your fine powers
There's so little that you understand
Unless you live your life in the wonder
Of your journey through life my friend

You are a miracle
You are a miracle
You are a miracle
You're a miracle when you believe
You make the choice you plant the seeds

Be in wonder of the universe
In a dewdrop on a leaf
Be in wonder of your own self
You're a miracle when you believe
There will be times when you may doubt it
Times when you really don't know
But listen to this inner knowing
And dance to your inner flow

Believe in the miracle believe in the self
Believe in the state of your own mental health
You've got the choice
You plant the seeds
You've got the power
The miracle when you believe

Take a happy walk on a fine rainbow
And dance to the warmth
Of your own inner glow
Believe in the miracle
Believe in yourself
You're a gift to this earth
And to everybody else
Because you are a miracle

Songs for The Thinking Learning Classroom

Hologram

All my life is a mirror
Of everything that's inside of me
My love my pain my gain and my loss
Are reflections of my energy
You know I love you love you because
Love is a wisdom inside of me
Love is this gift which you receive
Because I can love internally

Yes yes living in the light
Yes yes the universal mid
Yes yes now I understand
Energy energy
I'm a hologram

The other day when I lost my way
I found a road which helped me flow
On the road I found out
What to learn is about
Now I'm still planting seeds
And I watch them grow

When you give to me then I receive
My gift to you is that I believe
And in the flow of our own energy
You will receive what is meant to be

My brain my heart and my spirit flow
From the source of my creative soul
I learn I create with my own inner state
My own outer world I remould and reshape
I'm a free spirit last free spirit first
Living smile of the universe
And in the flow of our own energy
You will receive what is meant to be

What I create is what I live in
My own inner state is where I begin

The Rainbow Song

No one can take away what's deep inside
They can knock and kick and spit and bruise your pride
They can take away your freedom and chain you to a wall
But your heart and faith and soul, well they're still yours

No one can take away what's truly mine
They can call me names cause some pain and spread some lies
They can strip into my feelings and sneer at what I say
But my faith and heart and soul, well they remain

I go within and I am flying
High above a den of lions
When evil angels strip my pride
I still believe in the good inside

No one can douse the sparkle in your eyes
They can try to but your humor's still alive
They can take away your clothing and beat you so it seems
But they cannot break the power of your dreams

No one take take away a depth of soul
They can bash and cut and kick out of control
They think they have your measure, think that your all done
But your faith and heart and soul have really won

I go within and I am flying
High above a den of lions
When evil angels strip my pride
I still believe in the good inside

We have touched the edge now
We can hear the call
We can grow a much deeper
We can use the ground to rise up,
Rise up,
Rise up,
When we fall.

A Better Way

Like losing the sparkle in a diamond
We're losing the diamonds themselves
We're losing the dancers in the spotlight
We're losing the artists and their wealth

We're losing the conductors and the music
We're losing the colours and the paint
And now as we are feeling the sorrow
We feel the inner ache

Looking for the better way
I know love can find a way
Let us lift our hearts above
Let this be our act of love
For through the artist, the dancer
The mother and the child
Find the better way
Make a better day

We are losing the women of the desert
We're losing the green hope of the land
We are losing the gold within the golden gate
We're losing the members of the band

And yet there is no losing
Through our greatest power
Hands linking souls and minds and hearts
Together we can cause a shower of miracles
When we join together there is no greater love

Looking for the better way
I know love can find a way
Let us lift our hearts above
Let this be our act of love
For through the artist, the dancer
The mother and the child
Find the better way
Make a better day

Kumsitz

performed by Anne Rowe

Come and sit come and sit
Take the candle in your hand
Take this gift of peace my friend
It's my friendship I extend
Share your mind and share your heart
Start as strangers and become good friends

Come and sit come and sit
We are learning all the time
Our inner world is fine
The earth is yours and mine
In the circle we are one
I say my friend shalom shalom

Come and sit come and sit . . . Brother
Come and sit come and sit . . . Sister

Come and sit come and sit
Have your say and pass it on
Knowing now we all belong
In the circle we are one
With all our words and all our deeds
We create growth and we plant new seeds

The circle is the world
Where it starts is where it ends
We begin we continue
We progress through many lands

Come and sit come and sit . . . Brother
Come and sit come and sit . . . Sister

Coeee Child

Coeee child with your wonder eyes
Deep brown land with your dreams inside
If we'd only look we would know it now
What's it all for anyhow come and show us how

Go gently into the morning
Go slowly within the day
Go with your eyes wide open
Coeee child the word is spoken
Let's walk about this wondrous untouched land
Take my hand we can understand

Coeee child there is grace in life
Slow dark earth there's a pace in life
If we'd only feel we could sense it now
The journey starts right here and now
I know it now

There's an answer in your stare
There is wind within your hair
There's an answer in this land
I begin to understand

Coeee child, I know you believe
In your deep brown land and
The air you breathe
If we'd only think we would have to know
Come and let the Dreamtime flow
Let it come and go...

Celebration

Everyone is feeling good
We want the world to know
We're standing in the sunlight
Of a universal glow
We know we can make a difference
We know our own self-worth
We are sharing all the riches
We are friends of planet earth

Let's make each day a progress day
Everyone let's celebrate
Let's celebrate
With loving, caring, giving and sharing
On this special day
Through the laughter
And the thankful tears
Let's celebrate with three big cheers
We're living our lives and we're feeling great
Everyone come on, let's celebrate

You and I can make a change
We know we have the voice
The perfect stimulation of saying
'It's my choice'
Discovering possibilities
The power of the mastermind
We can fake it, till we make it
We will, we won't just try

Congratulations, congratulations
Everyone come on
Congratulations, this feeling is contagious
Let's spread a little sunshine
Everyone sing, just one more time...

The Greatest Gift

Who knows when the seed is planted?
Who really knows who plants the seed?
We all influence each other
As we share the air we breathe

Each drop becomes a river
Each river becomes a flow
'Till somehow the word spells water
The child understands
And the learning grows

There may not be an audience clapping
There may not be a statue tall
No extra million in the pay cheque
No gold leaf certificate on the wall

Each drop becomes a river
Each river becomes a flow
'Till somehow the word spells water
The child understands
And the learning grows

You feel it in their smile
When you see them believe
As they learn the value of learning
And start to be free

Each drop becomes a river
Each river becomes a flow
'Til somehow the word spells water
The child understands

So, thank you
For the seeds you're planting
Thank you
For the love you sow
Thank you
From all the children
You make the river's flow...
